| 3 | SSC | GSEB | 2014 | 83% |

## Educational Project:

### Organic Store [Final Semester Project]:

Organic Store is a web-based application where the concept of this project is to sell organic fruits and vegetables directly to customers from the farm. The seller will have complete control over the website and there will be no inclusion of a middleman in between the whole process. The main concept of our project is to make a website from which the customers can order fruits and vegetables directly from the farm. The products will be delivered directly from the farm to the respective customers.

| Contribution | <ul><li>UI Design and Integration</li><li>Develop entire website from scratch in CodeIgniter (PHP framework).</li><li>Integrate PayUMoney payment gateway.</li><li>Develop admin-panel which include modules for product addition, deletion, and modification.</li></ul> |
|---|---|
